GovServe – Grievance & Appeals Management: User Stories

G1. View Grievance Dashboard

User Story Role: Citizen
User Story Details: As a Citizen, I want to view my grievance dashboard so that I can see all my submitted grievances and their current statuses.
User Story Acceptance Criteria:

- Given the citizen is logged in When they open My Grievances Then the system displays a list with GrievanceID, RelatedApplicationID, Category, Status, FiledDate, LastUpdated.
- Given the list is visible When the citizen applies filters (Status/Category/Date) Then the system returns results matching the filter. **Story Priority:** High

G2. File a New Grievance

User Story Role: Citizen
User Story Details: As a Citizen, I want to file a new grievance for a specific application so that I can seek redressal.
User Story Acceptance Criteria:

- Given the citizen selects an application When they submit category, description, and optional attachments Then the system creates a grievance with status Open and shows a confirmation with GrievanceID.
- Then the grievance appears in the dashboard and a notification is generated for the officer queue. **Story Priority:** High

G3. View Grievance Details

User Story Role: Citizen
User Story Details: As a Citizen, I want to view detailed information for a grievance so that I can understand progress and requests.
User Story Acceptance Criteria:

- Given the citizen is on My Grievances When they click View Then the system displays the full timeline (events, comments, officer messages, attachments). **Story Priority:** Medium

G4. Provide Additional Information

User Story Role: Citizen
User Story Details: As a Citizen, I want to upload documents or comments when the officer requests information so that the investigation can proceed.
User Story Acceptance Criteria:

- Given grievance status is InfoRequested When the citizen uploads files and posts a comment Then the system saves the artifacts, moves the status to InProgress, and notifies the officer. **Story Priority:** High

G5. Acknowledge Resolution

User Story Role: Citizen
User Story Details: As a Citizen, I want to acknowledge the resolution so that the grievance can be closed.

User Story Acceptance Criteria:

- Given status is Resolved When the citizen clicks Acknowledge Then status changes to Closed, ResolutionDate is recorded, and a confirmation is shown. **Story Priority:** High

G6. View My Grievance Queue

User Story Role: Grievance Officer

User Story Details: As an Officer, I want to view my assigned and unassigned grievances so that I can manage my worklist.

User Story Acceptance Criteria:

- Given the officer is logged in When they open Grievance Queue Then the system displays Open, InProgress, InfoRequested, Escalated items with Priority, Category, and SLA clock/breach flag.

Story Priority: High

G7. Assign/Self-Assign Grievance

User Story Role: Grievance Officer

User Story Details: As an Officer, I want to self-assign or accept assignment of a grievance so that I can start investigation.

User Story Acceptance Criteria:

- Given a grievance is Open When the officer clicks Assign to me Then AssignedOfficerID is set, status moves to InProgress, and the SLA stage (re)starts. **Story Priority:** High

G8. Request Information from Citizen

User Story Role: Grievance Officer

User Story Details: As an Officer, I want to request additional information with a message/template so that I can complete verification.

User Story Acceptance Criteria:

- Given the officer views a grievance When they click Request Info and submit a message Then status changes to InfoRequested, the citizen is notified, and the SLA timer pauses (if configured). **Story Priority:** High

G9. Add Internal Notes & Evidence

User Story Role: Grievance Officer

User Story Details: As an Officer, I want to add internal notes and upload evidence so that the case file is complete.

User Story Acceptance Criteria:

- Given the officer is on grievance details When they add a note or upload a file Then the system records the entry in the timeline with correct visibility (internal vs citizen-visible). **Story Priority:** Medium

G10. Mark as Resolved

User Story Role: Grievance Officer

User Story Details: As an Officer, I want to mark a grievance as resolved with a resolution summary so that the citizen can acknowledge. **User Story Acceptance Criteria:**

- Given investigation is complete When the officer enters ResolutionSummary and clicks Resolve Then status changes to Resolved, ResolutionDate is captured, and the citizen is notified. **Story Priority:** High

G11. Escalate Grievance

User Story Role: Grievance Officer
User Story Details: As an Officer, I want to escalate a grievance that is at risk or has breached SLA so that the supervisor can intervene. **User Story Acceptance Criteria:**

- Given a grievance is Open, InProgress, or InfoRequested When the officer clicks Escalate Then status updates to Escalated, EscalationLevel increments, and the supervisor receives a notification. **Story Priority:** Medium

G12. Close After Timeout

User Story Role: System / Grievance Officer
User Story Details: As the System, I want to auto-close resolved grievances after X days without acknowledgment so that queues remain clean. **User Story Acceptance Criteria:**

- Given status is Resolved When X days elapse without citizen acknowledgment Then status changes to Closed with ClosureReason = Auto. **Story Priority:** Medium

G13. Monitor SLA & Aging

User Story Role: Supervisory Officer
User Story Details: As a Supervisor, I want an SLA and aging dashboard so that I can proactively manage risk.
User Story Acceptance Criteria:

- Given the supervisor opens the dashboard When data loads Then the system shows counts by status, SLABreachRate, and aging buckets (0–2d, 3–7d, >7d) with filters (Service/Category/Officer).

Story Priority: High

G14. Reassign Escalated Grievances

User Story Role: Supervisory Officer
User Story Details: As a Supervisor, I want to reassign escalated grievances so that they progress without delay.
User Story Acceptance Criteria:

- Given a grievance is Escalated When the supervisor selects a new officer and confirms Then AssignedOfficerID updates, status returns to InProgress, and both officers are notified. **Story Priority:** High

A1. View Appeals Dashboard

User Story Role: Citizen
User Story Details: As a Citizen, I want to view my appeals so that I can track progress and decisions.
User Story Acceptance Criteria:

- Given I am logged in When I open My Appeals Then I see a list with AppealID, ApplicationID, Status, FiledDate, LastUpdated.

Story Priority: High

A2. File an Appeal

User Story Role: Citizen
User Story Details: As a Citizen, I want to file an appeal against an application decision so that it can be re-evaluated.
User Story Acceptance Criteria:

- Given my application has a decision When I click File Appeal and submit reason plus attachments Then an appeal is created with status Submitted and I receive a confirmation with AppealID.

Story Priority: High

A3. View Appeal Details

User Story Role: Citizen

User Story Details: As a Citizen, I want to view appeal details, hearing schedule (if any), and decision so that I stay informed.

User Story Acceptance Criteria:

- Given I click View on an appeal When details open Then I see the timeline, panel assignment, scheduled hearing, and decision (when available). **Story Priority:** Medium

A4. Acknowledge Appeal Decision

User Story Role: Citizen

User Story Details: As a Citizen, I want to acknowledge the appeal decision so that the appeal can be closed (if applicable).

User Story Acceptance Criteria:

- Given status is Decided When I acknowledge the decision Then the system records acknowledgment and may proceed to closure as configured. **Story Priority:** Low

A5. Acknowledge Appeal (Officer)

User Story Role: Appeals Officer

User Story Details: As an Appeals Officer, I want to acknowledge new appeals so that the review SLA starts.

User Story Acceptance Criteria:

- Given an appeal is Submitted When I click Acknowledge Then status becomes Acknowledged and the SLA timer starts.

Story Priority: High

A6. Assign Appeal to Panel

User Story Role: Supervisor / Admin

User Story Details: As a Supervisor/Admin, I want to assign an appeal to a configured panel so that it can be reviewed.

User Story Acceptance Criteria:

- Given panels exist When I select a panel Then the system sets PanelID and moves status to UnderReview with notifications sent to panel members.

Story Priority: High

A7. Schedule Appeal Hearing

User Story Role: Appeals Officer

User Story Details: As an Officer, I want to schedule a hearing (optional) so that parties can present their case.

User Story Acceptance Criteria:

- Given an appeal is UnderReview When I add date/time/location or virtual link Then status becomes HearingScheduled and all participants are notified. **Story Priority:** Medium

A8. Record Appeal Decision

User Story Role: Panel / Appeals Officer

User Story Details: As a Panel, I want to record the decision (Uphold/Overturn/Modify) with notes so that the appeal outcome is formalized. **User Story Acceptance Criteria:**

- Given review is complete When I submit decision and notes Then status becomes Decided, DecisionDate is recorded, and the citizen is notified.
- Then if decision is Overturn or Modify, the related Application/Case is updated or re-routed per configured workflow.

Story Priority: High

A9. Close Appeal

User Story Role: Appeals Officer / System

User Story Details: As an Officer/System, I want to close decided appeals (immediately or after X days) so that records are finalized.

User Story Acceptance Criteria:

- Given status is Decided When closure is confirmed or auto-closure runs Then status becomes Closed and final notifications are sent.

Story Priority: Medium

C1. Configure Grievance Categories & Reason Codes

User Story Role: E-Governance Admin

User Story Details: As an Admin, I want to manage categories and reason codes so that reporting is standardized.

User Story Acceptance Criteria:

-Given the admin is on Categories When they add/edit/deactivate a category Then the system saves changes and prevents deletion if the category is in use. **Story Priority:** High

C2. Configure Grievance SLAs

User Story Role: E-Governance Admin

User Story Details: As an Admin, I want to set SLA days by service/category/stage so that compliance can be tracked.

User Story Acceptance Criteria:

- Given SLA parameters When the admin saves Then the system versions the configuration and applies it to new cases while preserving history.

Story Priority: High

C3. Manage Appeal Panels & Members

User Story Role: E-Governance Admin

User Story Details: As an Admin, I want to create panels and manage members so that appeals can be routed for review.

User Story Acceptance Criteria:

-Given the admin creates/edits a panel When they add/remove members Then the system saves changes and prevents deletion of panels with active assignments. **Story Priority:** High

C4. Configure Appeal SLAs

User Story Role: E-Governance Admin

User Story Details: As an Admin, I want to set SLAs for acknowledge and decision stages so that timelines are enforced.

User Story Acceptance Criteria:

- Given configured values When the admin saves Then the SLA is versioned and used for new appeals without altering existing cases retroactively.

Story Priority: High
